

80-LB CAPACITY OPL DRYER

AD-80i

Our i-Series Dryer Lineup offers versatility and customized solutions to help reinforce facility throughput in on-premise markets.

From the standard Stainless steel basket and front panel (which help protect against corrosion) to the multi-lingual, customizable and intelligent controls: We've designed an on-premise drying machine, engineered to help save money on utilities, payroll, and maintenance- all thanks to our innovative design.

With consistent performance, optimized dry times, and reliable operations, it's easy to see why ADC™ is a popular choice.

INTELLIGENT INVERTER DRIVE

Alternates the speed of the drum throughout the cycle: Allowing for a soft controlled start and optimized tumbling during drying. The inverter drive also features a simple and reliable single drive belt system making for easy serviceability.

FULLY-INSULATED CABINET

The preheat function helps to recover heat that is typically lost into the room by diverting it into the burner to warm the incoming air. This helps to improve dry times and overall throughput.

STAINLESS STEEL BASKET & FRONT

The i-Series comes standard with a stainless-steel basket and front panel helping to protect against corrosion.

The AD Series offers an optional stainless-steel basket and front panel helping to protect against corrosion.

STANDARD FEATURES

- Variable drum speed
- Pre-heat system
- Trans-axial airflow
- Fully-insulated cabinet
- Double-pane door glass
- Self-cleaning lint screen
- Direct spark ignition
- Two-point roller support
- "IMC®" intuitive micro control with auto-dry system
- S.A.F.E. (Sensor Activated Fire Extinguishing System)
- Single-phase reversing basket
- Stainless steel basket and fronts
- Simplified inverter drive system
- Available in gas, electric & steam
- Fits through 48" door

OPTIONAL FEATURES

- Automatic Airflow Compensator (AAFC)*

*Optional AAFC adjusts exhaust fan speed to improve exhaust flow with increased back pressure caused by installation issues. This exclusive patented technology adjusts fan speed and enhances dryer performance. Measurements are calculated in real-time, on an ongoing basis to optimize dry-times and efficiency.
